### THE BEARS CONTROL MARKET LACK OF CASH DEMAND PROVES POTENT FACTOR.

#### Corn Closed Practically Unchanged Onts Goes Down a Peg-Provisions Closed Lower, Especially January Pork.

CHICAGO, Nov. 11.-Wheat to-day went even lower than yesterday's bottom price, closing Websc lower on bearish statistics and lack of cash demand. Corn closed unchanged to Le down and outs a shade lower. Provisions closed lower, January pork 75c.

The story of wheat to-day was one of conting liquidation, based on the bearish tone of statistics. increase in the visible of 2,000,000 and in local stocks of 1,000,000 bushels. The cash demand was small. With this array of figures as an impulse, the market eased off from the opening, going a continued puts. December to 674x and May to 71c. There was a momentary raily of a shade on buyshing against puts, but it was a merely staw on the downward rush. With the close there was continued buying against puts and some covering by shorts, which put closing figures at 674x for December and 715x for May. The market was dull and a belief that the price would sink still more Monday when statistics are expected to be builtied. New York reported 15 loads taken for export. Clear ances were liberal, 631,000 bushels. Receipts at primary points were 1,017,082 bushels, against 1,522, 860 bushels last year. Minneapolis and Duluth reported receipts of 1,029 cars, as compared with 122 last week and 1,225 a year ago. Receipts here were 86 cars, 25 of contract grade.

26 cars, 25 of contract grade. Corn stubbornly opposed traveling parallel with wheat. In this is was assisted by the statistics. There was a report of dagange from frost and dry weather in Argentine and Ilverpool was firm. There was a difference of opinion concerning country of-ferings, but a majority apparently held that they were still small and not increasing. December opened unchanged at 11½ 511½c, ranged to 51½ 511½c and closed at 11½ 511½c, and opened a shade down at 12½c, ranged 12% May opened a shade down at 12½c, ranged 12% May opened a 12½ 512½c.

at 21%, ranged 27%,21% and closed at 27%,672%. Receipts were 221 cars: at primary points, 457,000 bushels. The government report was taken to indicate an improvement in the yield. New York reported 30 loads taken for export.

There was quite a good trade in oats, the selling of May by professionals and commission people being the feature. The demand was sufficient to consume the offerings. December sold at 22%,622% and closed at 25%,622% May sold at 23%,622% and closed at those figures. Receipts were 152 cars. Provisions were a dull market and the price tended downward with wheat. January pork closed 7½ lower at 15.60, January lard 2½c under yesterday's close at 55.22 and January ribs 16 lower at 45.55. There were few offerings and little demand. Exports for the week showed up bad. Hog prices were also lower, a fact which had a depressing indusence. Estimated receipts for Monday: Wheat, 110 cars: corn, 300 cars; oats, 250 cars; hogs, 41,000 head.

But as receipts were better and the gov-ernment crop report still indicates a crop of over 2.000,000,000 bushels, buyers were a little bearish, though willing to take hold quite freely at the pre-vailing prices. Home shippers and exporters both buying and pretty good clearances were made by the close. Cables came in a little stronger which en-couraged foreign buying, and prevented any serious break in prices under the better receipts. THAN EXPECTED.

Deficit Away Below Legal Requirements, and Prices Gave Way All Around-Bonds Moved in

A very good counter business was had yesterday, but there was the usual Saturday's quiet at the discount boards. Rates, however, held steady and firm at 6688 per cent. Shipments of currency to the country only moderate. Bank clearings, \$2,624,952, against \$2,217,288, an increase of \$137,494 a gain of 4 per cent. For the week, \$15,356,64, against \$12,753,290, an increase of \$2,902,774, a gain of 24 per cent.

Stocks and Bonds.

NEW YORK, Nov. 11.—To-day's bank statement proved rather worse than the most extreme estimate had foretold. The loss in the cash reserves ran up to \$5,217,400, whereas the extreme estimate had been for only \$14,500,000. Some sanguine persons had hoped that the cash losses would be offset by a loan contraction, as high as \$12,000,000. Instead of that the decrease in loans reached only \$7,131,101. As this only reduced the reserve requirements to the extent of \$2,765,000. the cash losses have resulted in increasing the deficit below the legal requirement to \$2,765,000. the cash losses have resulted in the reserve requirement to \$2,765,000. the cash losses have resulted in the reserve requirement to \$2,765,000. the cash losses have resulted in the reserve rether the bears which are strikingly small, in spite of a large volume of dealings. This department offered a stubborn resistance to the pressure and there were evidently heavy buying orders to be executed. In the specialities, especially those recently active in apeculation, the losses were more severe. In Sugar, the coalers, the local traction stocks, especially Manhattan, Tobacco and Tennessee Coal, there were were were expected that many the coalers, the local traction stocks, especially Manhattan, Tobacco and Tennessee Coal, there were were were gent to cover at the decline and some sharp railies were achieved. As loans made on Friday on the Stock exchange carry over till Monday, the day's money market was nominal. Liquidation was in anticipation of Monday's money market and was not forced by actual calling of loans. Yesterday large calling of loans is probably not fully reflected in the statement, so that the actual condition of the banks may be slightly better than indicated, but the course of the money movement makes the necessity of further loan contraction a practical certainty. The foreign exchange market, like the money market, and the money mark Stocks and Bonds.

OF INTEREST TO STOCKMEN. West Texas Ranges Fine and Cattle

Doing Well-Other Items.

"The ranges of Western Texas are fine. I never saw them look better at this time of year and cattle will go into winter in good condition," said J. N. Irwin, who is just up from there. "Hut there will be less feeding than for some years owing to a short cotton crop and the much higher price for cottonseed meal this season. Cattle are sbringing good prices and cattle men feel much encouraged." He also stopped over in Dickinson, Morris and Marion countles and says he found an abundance of feed there, but the supply of cattle is short.

HORSE EATS OWNER'S MONEY. Mr. Whitehead's Nag Increases His Own Value \$65 at His

Owner's Expense. New Paris (Ind.) Special. Jacob W. Whitehead, a storekeeper, is short \$65 in currency and his horse has risen in value. Mr. Whitehead went home late and climbed the stairs of the barn to throw down hay to the family nag. In his pocket he had a pocketbook containing five ten-dollar bills, one five and ten ones. This dropped from his pocket as he bent over to pick up the hay. Mr. Whitehead did not miss the money until this morning. He then searched the barn, and found a few fragments of the pocketbook, together with tiny bits of the bills. The faithful animal had devoured the hay and valorously tackled the pocketbook and contents, leaving nothing with which Mr. Whitehead could make proof of his loss at the treasury.
